

NOAM ACKERMAN

Frontend Developer

About Me

Frontend engineer with a strong eye for design and a passion for building thoughtful, intuitive user experiences. I enjoy working at the intersection of engineering and design, from shaping UX solutions and design systems to bringing polished React products to life. I'm also a musician and visual artist, applying creativity and a collaborative mindset to my work.

Experience

Really Good - [LinkedIn](#)

Frontend Engineer

Feb 2025 – Sep 2026

Worked as a frontend developer across three client products, with a strong focus on UI/UX, design systems and reusable component architecture.

- **Briya** ([LinkedIn](#)) - Led the evolution of the design system alongside the product designer, defining, building and redesigning components to meet evolving product needs. Developed React features and UX solutions, including a researcher-facing AI chat experience. Used Claude Code extensively in my daily workflow.
- **Scala Biodesign** ([LinkedIn](#)) - Sole frontend developer, taking a complex medical-data UI from an early demo to production while building reusable components and shaping UX solutions with design and product.
- **Rhino Federated Computing** ([LinkedIn](#)) - Helped build a new client platform from scratch using Next.js, Tailwind CSS and AI-assisted development.

Flare - [LinkedIn](#)

Frontend Engineer

2024 – 2025

- Developed complex, data-driven interfaces using Next.js, React, TypeScript and Tailwind, translating Figma designs into responsive production features.
- Built reusable components and collaborated across teams to improve UX, maintainability and frontend consistency.

PlayTracker - [LinkedIn](#)

Freelance Developer

2023 – 2024

- Researched gaming platforms and APIs, integrating data from official documentation, third-party libraries, and network analysis.
- Developed API-driven solutions for retrieving and displaying player profiles and statistics across gaming platforms.

Nosto - [LinkedIn](#)

Frontend Developer

2021 – 2023

- Built responsive merchant interfaces using React, JavaScript and CSS, taking features from Figma to production.
- Contributed to UI/UX improvements, wireframes and cross-team development.

Education

Front-end, React and responsive web development

SheCodes USA, 2021

Epic React - Course for Advanced React

Kent C. Dodds, 2023

Online Courses for TypeScript and for NodeJS

2023
